

MEET THE TEACHER!

Mrs. Allyson McIntosh

THE BASICS!

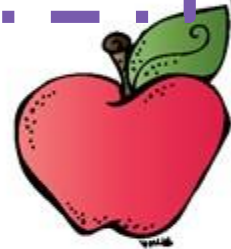

Hi! My name is Allyson! I am the new Special Education Director and Educational Diagnostician for Weimar ISD. I currently live in Flatonia with my husband and 2 kids—Amelia and Finlay! We have tons of animals which includes 3 dogs, 2 cats, tons of Jersey cows, some chickens, some ducks, and bees! I am excited to be in Weimar ISD. This will be my 17th year in education and I look forward to supporting our teachers and students.

MY CHILDHOOD!

I am originally from Houston and grew up in Colorado and Klein ISD. I am the oldest of 4 siblings and was the Klein Oak High school news editor of our newspaper for my last 2 years before I graduated high school in 2001.

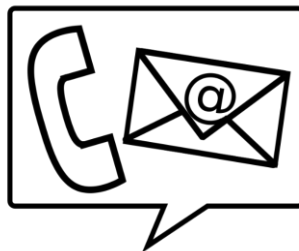

MY EDUCATION!

In December of 2006 I graduated from Stephen F. Austin University with a degree in Speech-Language Pathology and went to work in a private practice. After a year I moved back to Houston and worked in the school districts. Once starting there I was introduced to the world of special education testing and returned to get my Master's from SHSU in Special Education with a certification as an Educational Diagnostician.
